

*A partnership project of TCA & Evertek*

---

## Rural O'Brien County - We're Bringing You FIBER Internet!

June, 2024

Dear TCA customer,

We're writing with very good news. As you may know, The Community Agency (TCA) & Evertek is building a fiber Internet network to the rural customers of Hartley. It will deliver unlimited and **ULTRA-FAST INTERNET, TV and PHONE SERVICES**. We would love the opportunity to serve you when the project is complete, so please read below about next steps you can take today.

**This project is a partnership between TCA & Evertek.** We applied for and received funding for part of this project from the State of Iowa Broadband Grant program.

The **first and most important step you can take now** is to complete the online Permission to Bury form. You may complete the form online (using the link below) or use the paper form included with this letter.

- There is no cost to you for us to bring you fiber if you let us know before construction starts.
- Please complete the Permission to Bury form that can be found at [tcaexpress.net](http://tcaexpress.net).
- Completing the form doesn't obligate you to take service, but we know that most will want fiber Internet.
- If you don't complete the Permission to Bury form at this time and want fiber services later, there will be a fee of at least \$1,500 to bring fiber to your home.
- The Permission to Bury form can be found online at [tcaexpress.net/rural-obrien-county-fiber](http://tcaexpress.net/rural-obrien-county-fiber).

Recently our engineering partner has been in the area mapping locations and finalizing construction plans. We expect to start construction this summer. The project will be done in two phases; one this summer and one next summer.

Thanks for giving us the chance to serve you with fiber Internet.

Sincerely,

**TCA & Evertek**  
Your Hometown Provider
